11. A written description of the reasons justifying the variance detailing how the standards for approval of the variance provided by Section 3-100(B) are met or satisfied.

12. Any other information that are judged necessary by the Planning staff to ensure compliance with the Standards for Approval.

Note: Refer to Park County Land Use Regulations Article III, Standards for Approval of Variance.

Variance Application - Lowitzer, 144 Red Cloud Drive, Jefferson, CO 80456

We are asking to forego the 30 foot distance to property line on lot 102 owned by Jim and Rose Linn , PO Box 1351, Fairplay, CO, ph # 719-836-0955.

We are hoping to have a garage built in the area shown on the diagram. This site is on the same side as the electricity, and away from the propane gas tank so the propane company or any emergence vehicle can easily get to house and propane tank. The pathway from the garage door to the front door of our house will be easier. There is a strong slope on the other side other of the property that would make it difficult to try and build a garage. We believe our request meets the County's criteria for a variance as follows:

Criterion 1: The proposed site for location of our garage is best because of the slope of our lot. The North side of the drive, where we propose to build, is much more level than that to the South. Additionally, the North side is closer to the electrical supply point (which is on the North) and further from the propane tank (on the South. To build on the South side may in fact impede access to the propane tank for both the propane company and for emergency purposes.

Criterion 2: As noted above, our propane tank is located on the South side of the drive, and putting a garage on that side may place an obstacle for the propane company and for emergency vehicles/personnel who may need access to the tank. The propane tank was placed by builder and original owners of the cabin in 1996. We purchased the property in March, 2004.

Criterion 3: We have spoken with Mr. Jim Linn, our neighbor, about our desired placement, and he has assured us that he has no objection. Further, it is our belief that our location presents the lease obstruction to viewing the beauty of the area and its surroundings. Placing it on the South side of the drive, would, in our opinion, present such an obstacle.

Criterion 4: We believe that the intent and purpose of the regulation is in fact better served by building in the proposed location. A structure there poses no barrier to our neighbors to the North, and it allows good viewing from the drive to the South.

Thank you for your consideration.

PARK COUNTY BOARD OF ADJUSTMENTS
PLANNING DEPARTMENT STAFF REPORT

Board of Adjustments Hearing Date: November 8, 2016

To: Board of Adjustments Members

Date: October 26, 2016

Prepared by: Sheila Cross, Director of Development Services
Jill Falchi, Planning Technician

Case Number: 16SET-07

Subject: Lowitzer Variance

Request: The applicant is requesting a 15-foot variance from the north side property line setback requirement to accommodate a proposed garage.

Application Summary:

Applicant/Owner:	Arthur & Rose Lowitzer
Location:	Indian Mountain, Filing 25, Unit 2, Lot 103 addressed as 144 Red Cloud Drive
Current Zone District:	Residential (R)
Surrounding Zoning:	Residential (R) and Conservation Recreation (C/R). See Attachment 1.
Lot Size:	5.66 Acres
Existing Use:	Single Family Residential

Background:

The subject property is located in the western-most portion of the Indian Mountain Subdivision, approximately 1,000 feet from public land. See Attachment 2, Vicinity Map. The applicant is requesting a 15-foot variance from the north side property line setback requirement to accommodate a proposed garage. See applicant's site plan, Attachment 3. Because of the lot's considerable slope, location of propane tank and well head, and desire to protect scenic vistas, the applicant is requesting this variance. See Aerial and Topo Maps, Attachments 4 and 5, respectively. The neighbors to the north have consented to this variance request.

Staff received referral responses from the Assessor and Public Works who had no conflicts and no comments. IREA responded suggesting a condition that the applicant provides a minimum 15' clearance to the proposed garage location and the existing overhead electrical facilities. The applicant's representative and contractor noted that the proposed location of the garage will provide, at a minimum, 20' of clearance.

Land Use Regulations and Strategic Master Plan:

Each of the standards for approval of a variance (Land Use Regulation (LUR) Article III, Division 1, Section 3-100, page 2) is addressed below.

1. **A strict application of the Resolution causes peculiar and exceptional practical difficulties or exceptional and undue hardship by reason of exceptional narrowness, shallowness, or shape of a specific piece of land or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the land:**

   The parcel in question has limited building sites because of the slope of the lot. The only other location for the proposed garage, on the south side of the house, was discounted because of the location of a propane tank and well head. Building a garage in that location would block access to both. In addition, the southern location would require considerable expense to bring power to.

2. **The applicant provided reasonable and adequate evidence that the variance request is not a self-imposed hardship that can be rectified by means other than relief through a variance:**

   The hardship was caused by the previous owners who located the well and propane tank in the only other building site on the lot.

3. **There exists no substantial detriment to any neighbor or to the public by the granting of the variance:**

   Staff discerns no substantial detriment to any neighbor or the public that would be caused by granting the variance. According to the applicant, the property owners to the north support this variance.

4. **The intent and purpose of the regulation being varied is not substantially impaired or defeated by the granting of the variance.**

   Setback regulations exist to provide privacy, light access, and air movement between dwellings. Given that the house immediately to the north is approximately 300 feet away from the proposed building site, the purpose of the regulation would not be substantially impaired by granting the request.

Staff does not find this variance request to be contrary to any of the Guiding Principles of the Strategic Master Plan.

Impact Analysis:
No physical or aesthetic impacts are anticipated.

Public Comment:
No public comments on this variance request had been received at the time this report was prepared.

Recommendation:
Staff recommends approval of the application with the following condition:

1. The applicant provides a minimum 15’ clearance to the proposed garage location and the existing overhead electrical facilities.

Re: LOWITZER VARIANCE
Case No.: 16SET-07

Dear Ms Gannon:

The Association has reviewed the contents in the above-referenced referral response packet. We reviewed the project for maintaining our existing facilities, utility easements, electric loading, and service requirements. We are advising you of the following concerns and comments:

The Association has existing overhead electric facilities on the subject property. The Association will maintain these existing utility easements and facilities unless otherwise requested by the applicant to modify them under the Association's current extension policies. The applicant didn't provide the location of the existing overhead electric facilities, therefore the Associations will require as condition for approval, provide a minimum fifteen (15') foot clearance to the proposed garage location and the existing overhead electrical facilities.

Sincerely,

Brooks Kaufman

PARK COUNTY PLANNING COMMISSION
PLANNING DEPARTMENT STAFF REPORT

Planning Commission Hearing Date: December 13, 2016

To: Planning Commissioners

Date: December 1, 2016

Prepared by: John Deagan, AICP; Planner

Case Number: 16ZON-14

Subject: Wayland Rezoning

Request: Applicant is requesting a rezoning from Residential to Residential Estate.

Application Summary:

Applicant:	Erik and Michele Wayland
Owner:	Same
Location:	New Lot 19, Badger Mountain Ranch No. 1, addressed as 353 McMurry Road
Current Zone District:	Residential
Surrounding Zoning:	Residential, Conservation/Recreation, and Residential Estate - a zoning map is included as Attachment 1.
Lot Size:	39.9 acres
Proposed Zoning:	Residential Estate

Background:

The subject property is located in the Badger Creek Ranch subdivision in the southwest corner of the county, 28 road miles from Hartsel. A Vicinity Map is included as Attachment 2. It consists of one metes-and-bounds parcel zoned Residential. The applicant wishes to rezone the parcel to Residential Estate in order to have cattle on the lot. This is appropriate due to the large size of the lot (39.9 acres) and the existence of other land zoned Residential Estate in the vicinity.

Land Use Regulations and Strategic Master Plan:

Each of the standards for approval of a Zoning Map Amendment (LUR Section 5-202, page 9) is addressed below.

A. In considering any petition for amendment of the Official Zoning Map, the following standard shall govern. The applicant for the proposed amendment shall bear the burden of proof and the resolution approving the zoning map amendment shall be approved and adopted only if it is demonstrated by clear and convincing evidence presented during the public hearing that the following conditions or circumstances exist:

1. **The property possesses the geological, physical, and other environmental conditions that are compatible with the potential uses permitted in the proposed zone district; and**
   The property's geological, physical, and other environmental conditions are compatible with the potential permitted uses in the Residential Estate Zone District.

2. **The property has a reasonably certain right of permanent legal access permitting vehicular ingress and egress from the property to the public thoroughfare; and**
   The property has extensive frontage along McMurry Road.

3. **Access to the property from the public thoroughfare reasonably meets County street, road, or driveway standards or, if the property is undeveloped, such access will be established prior to issuance of a building permit; and**
   Access will have to meet relevant requirements prior to issuance of a building permit.

4. **The potential uses of the property within the proposed zone district are compatible with other properties within the immediately surrounding area; and**
   Permitted uses within the Residential Estate zone district that are not allowed in the Residential zone district are the keeping of Large Livestock, Duplex, Guest House, Private Riding Arena, and Private Stable. With the exception of the keeping of Large Livestock, none of these represent a radical change from uses allowed in the Residential zone district. The applicants intend to keep cattle on the lot and could have up to four cow/calf pairs. They intend to fence their lot to contain the cattle.

5. **At least one of the following:**
   a. **The rezoning, as proposed, is consistent with the advisory provisions of the Park County Strategic Master Plan; or**
      The subject property's rezoning is consistent with the advisory provisions of the 2016 Park County Strategic Master Plan. Goal 3.2, Strategy D is to "encourage a transition to agricultural uses with more livestock than would be typically allowed in platted subdivisions…where lot sizes are large enough…Special consideration should be given to the compatibility of agricultural

uses on platted subdivisions with nearby residential development."

b. The rezoning, as proposed, is supported by circumstances and conditions within the immediate area which have changed since the adoption of the Park County Strategic Master Plan; or
Not Applicable.

c. The rezoning, as proposed, is to a Planned Unit Development
Not Applicable.

Impact Analysis:

If the lot is fenced to prevent livestock from leaving, no significant impacts resulting from the rezoning are anticipated.

Recommendation:

Based on the foregoing, staff recommends that the Rezoning be approved with no conditions.

___X_ We offer the following comments regarding this referral:

The board understands that the current application is for rezoning from R to R-20, and as such we have no environmental concerns.

However, mapping in the application provided indicates a proposed driveway through existing wetland. To our knowledge, there has been no wetland delineation or Wetland Restoration and Replacement plan provided. As the Applicant proceeds with the proposed project, the Board believes that a Wetland Restoration and Replacement Plan will be required in accordance with Park County Land Use Regulations, Article VII, Division 9 - Wetland Regulations to disturb the wetlands for the driveway creation.

PARK COUNTY PLANNING COMMISSION
PLANNING DEPARTMENT STAFF REPORT

Planning Commission Hearing Date: December 13, 2016

To: Planning Commissioners

Date: November 28, 2016

Prepared by: Jill Falchi, Planning Technician
Sheila Cross, Director of Development Services

Case Number: 16PUD-02

Subject: Moore Dale Ranch Resort PUD Plat & Plan Amendment

Request: Applicant is requesting that the GCE Club House within Moore Dale Ranch Resort be converted to a residential condominium unit.

Application Summary:

Applicant:	Moore Dale Ranch Resort HOA C/O Grant Peck
Owner:	Moore Dale Ranch Resort
Location:	A portion of the North ½ of Section 26, Township 7 South, Range 73 West of the 6th P.M., addressed as 57920 Hwy 285. See Attachment 1 Vicinity Map.
Current Zone District:	Planned Unit Development (PUD), See Attachment 2 Zoning Map
Surrounding Zoning:	Residential (R), Agricultural Small Lot (A-35), Commercial (C)
Lot Size:	10.89 acres
Existing Use:	Common Event Center/Club House
Proposed Use:	Residential Condominium Unit
Public Comment	No public comment has been received.

Background:

The Moore Dale Ranch Resort PUD Plat and Plan was approved by the Board of County Commissioners on December 10, 1985. The subject development is located approximately three miles northwest of Bailey proper on State Highway 285. Moore Dale Ranch resort is comprised of condominiums, general common elements (GCE) including a pool, tennis court, club house, and central water and sewer, See Attachment 3 Aerial Map. To generate revenue for general improvements, the Moore Dale HOA is requesting an amendment to

the PUD Plat and Plan to change the GCE club house to a residence, which can then be sold for profit, see Attachment 4 Moore Dale Ranch Resort PUD Plat and Plan Amendment.

Land Use Regulations and Strategic Master Plan:

The Land Use Regulations (LURs) specify that major PUD amendments, which this application represents, are 1) consistent with the standards of approval for a Final Plan and Plat, and 2) are consistent with the efficient development and preservation of the entire PUD (LUR Section 5-313, F.7. and G.1, pages 42 and 43). Each of the applicable approval criteria is addressed below.

Final PUD and Plat and Rezoning applications shall be approved by the Board of County Commissioners only if they determine that the Final PUD Plan/Plat and Rezoning:

A. Is consistent with the approved Preliminary PUD Plan and Plat;
The requested amendment is consistent with the general intent of the original PUD. Funding for upkeep of other improvements is presumably a higher priority than maintaining ownership of the common clubhouse.

B. Substantially conforms to the goals and policies of the Park County Strategic Master Plan;
The existing Club House is connected to Moore Dale's sewer and sanitation systems and the existing structure will be converted and utilized as a residential condominium unit. An additional condominium unit will increase Moore Dale's density, will not perpetuate residential sprawl, and is therefore consistent with Park County's Strategic Master Plan.

C. Includes all revisions and conditions imposed by the Board of County Commissioners during their approval of the Preliminary PUD Plan and Plat;
The Moore Dale PUD Plat & Plan Amendment is consistent with the original Moore Dale Ranch Resort Condominium Map, Book 399 Page 492, which acts as the PUD's original plat and plan.

D. Has addressed all professionally identified concerns regarding potential wildlife impact, water quantity and quality, wastewater treatment, traffic, utilities, drainage, and geology;
Depending on the past and future use of the Clubhouse/Event Center, changing its use from a general common element to a condominium unit may reduce the impact on the central water and sewer, traffic and wildlife. No impact on drainage and geology is anticipated.

E. Where public improvements are proposed, has had a subdivision improvement agreement approved to form and legality by the County Attorney and executed by the applicant in order to secure the timely and complete construction of the public improvements;
There are no new proposed public improvements associated with this plat amendment.

F. Will result in a substantial benefit to the County, compared to what could have been accomplished through strict application of otherwise applicable base zoning district standards;

Contingent on the approval of the requested PUD Plat and Plan Amendment, the revenue from the sale of the newly designated Unit 49 residence will go to the Moore Dale HOA's general fund. This revenue will fund improvements included in the four-year Moore Dale Improvement Plan, see Attachment 5. The most immediate improvements include new siding, gutters, and trim as needed; and fresh paint for all structures within the PUD.

G. Complies with the intent of the PUD zoning district as described in Section 5-313; and

This amendment complies with the intent of the PUD zone district.

H. Is in the best interest of the health, safety and welfare of County residents.

The residual proceeds from this proposed amendment could increase property values as well as improve the aesthetics of the neighborhood, and is in the best interest of the health, safety, and welfare of County residents.

Impact Analysis:

No significant impact is anticipated to schools, parks, storm drainage or utilities.

Recommendation:

Based on the foregoing, staff recommends that the PUD Plat & Plan Amendment be approved with no conditions.

Pertaining to Application to change use of a building at MooreDale Ranch Resort

Dear Planning Department,

On October 18th, the Annual Meeting for the MooreDale Ranch Resort was held. The meeting was called subject to notification requirements dictated in the association's Bylaws and Declarations.

A copy of the agenda is attached.

The purpose of the meeting, among other things, was to discuss and vote on the Board of Directors plan to change the legal description of the Event Center (Club House) such that the unit would become a deedable, sellable and become a separate dues paying unit.

A quorum was established at the meeting and as dictated by CCIOA it was understood that 67% of the voting owners would be necessary to approve the measure.

The measure as presented to the ownership was as follows:

"Should the Board of Directors be authorized to amend the PUD sufficient to allow for deeding the Event Center as a single family home for the purpose of selling the home in the open market. Funds from the sales would be used 100% for the improvement of the Mooredale Community. The home would become a dues paying unit, subject to the terms and conditions established by the Board of Directors."

The measure was discussed and subsequently called for a vote by the President of the HOA, Grant Peck. The measure was seconded and by written, anonymous ballot, voted upon. The measure passed with 37 votes for and none against. There are 43 voting members of the Association. Accordingly, the measure passed with 86% of the memberships approval, well beyond the 67% required by CCIOA and the HOA's Declarations.

Ballots cast by the owners at the meeting are available if there is any need to verify the outcome of the voting.

I hope this detail will be sufficient to satisfy any questions about the will of the ownership at MooreDale Ranch Resort and the legal qualifications associated with this change of use application.

On behalf of the Board of Directors,

Grant Peck
President, MooreDale HOA

CAN'T MAKE THE MEETING?

This year's meeting is very important. We will be discussing and voting on the possible sale of the Event Center. To sell an asset, 67% of the ownership must vote in favor of the sale. Attendance or a Proxy is critical to conduct this important business.

A stamped, addressed envelope is enclosed for your convenience.

Please mail in your proxy if you are unable to attend! We must have proxies prior to or on Monday October 17th!

Hi Jill,

I don't see any issues with the amendment on our end with regard to water supply, production and or consumption. The building is still well within our augmentation rights and number of allotted taps in the community, and allowed usage even with converting it to a single family dwelling, we'll be fine with it.

Hope that helps, let me know if you have any more questions. Feel free to contact me directly..

I've attached the application as well as a referral response form. So the question is, from a water management standpoint, will this amendment be an issue?
