PARK COUNTY BOARD OF COUNTY COMMISSIONERS
PLANNING DEPARTMENT STAFF REPORT

Commission Hearing Date: December 22, 2016

To: Board of County Commissioners

Date: December 13, 2016

Prepared by: John Deagan, AICP; Planner

Case Number: 16ZON-14

Subject: Wayland Rezoning

Request: Applicant is requesting a rezoning from Residential to Residential Estate.

Application Summary:

Applicant:	Erik and Michele Wayland
Owner:	Same
Location:	New Lot 19, Badger Mountain Ranch No. 1, addressed as 353 McMurry Road
Current Zone District:	Residential
Surrounding Zoning:	Residential, Conservation/Recreation, and Residential Estate - a zoning map is included as Attachment 1.
Lot Size:	39.9 acres
Proposed Zoning:	Residential Estate

Background:

The subject property is located in the Badger Creek Ranch subdivision in the southwest corner of the county, 28 road miles from Hartsel. A Vicinity Map is included as Attachment 2. It consists of one metes-and-bounds parcel zoned Residential. The applicant wishes to rezone the parcel to Residential Estate in order to have cattle on the lot. This is appropriate due to the large size of the lot (39.9 acres) and the existence of other land zoned Residential Estate in the vicinity.

Land Use Regulations and Strategic Master Plan:

Each of the standards for approval of a Zoning Map Amendment (LUR Section 5-202, page 9) is addressed below.

A. In considering any petition for amendment of the Official Zoning Map, the following standard shall govern. The applicant for the proposed amendment shall bear the burden of proof and the resolution approving the zoning map amendment shall be approved and adopted only if it is demonstrated by clear and convincing evidence presented during the public hearing that the following conditions or circumstances exist:

1. **The property possesses the geological, physical, and other environmental conditions that are compatible with the potential uses permitted in the proposed zone district; and**
   The property's geological, physical, and other environmental conditions are compatible with the potential permitted uses in the Residential Estate Zone District.

2. **The property has a reasonably certain right of permanent legal access permitting vehicular ingress and egress from the property to the public thoroughfare; and**
   The property has extensive frontage along McMurry Road.

3. **Access to the property from the public thoroughfare reasonably meets County street, road, or driveway standards or, if the property is undeveloped, such access will be established prior to issuance of a building permit; and**
   Access will have to meet relevant requirements prior to issuance of a building permit.

4. **The potential uses of the property within the proposed zone district are compatible with other properties within the immediately surrounding area; and**
   Permitted uses within the Residential Estate zone district that are not allowed in the Residential zone district are the keeping of Large Livestock, Duplex, Guest House, Private Riding Arena, and Private Stable. With the exception of the keeping of Large Livestock, none of these represent a radical change from uses allowed in the Residential zone district. The applicants intend to keep cattle on the lot and could have up to four cow/calf pairs. They intend to fence their lot to contain the cattle.

5. **At least one of the following:**
   a. **The rezoning, as proposed, is consistent with the advisory provisions of the Park County Strategic Master Plan; or**
      The subject property's rezoning is consistent with the advisory provisions of the 2016 Park County Strategic Master Plan. Goal 3.2, Strategy D is to "encourage a transition to agricultural uses with more livestock than would be typically allowed in platted subdivisions…where lot sizes are large enough…Special consideration should be given to the compatibility of agricultural

uses on platted subdivisions with nearby residential development."

b. The rezoning, as proposed, is supported by circumstances and conditions within the immediate area which have changed since the adoption of the Park County Strategic Master Plan; or
Not Applicable.

c. The rezoning, as proposed, is to a Planned Unit Development
Not Applicable.

Impact Analysis:

If the lot is fenced to prevent livestock from leaving, no significant impacts resulting from the rezoning are anticipated.

Planning Commission and Public Comment:

The Planning Commission reviewed this application at their December 13, 2016 meeting and unanimously recommended approval of the application with no conditions. No public comment was received.

Recommendation:

Staff recommends that the application be approved with no conditions. The BOCC's options are to authorize the County Attorney to prepare a resolution to:

- Approve the application with no conditions;
- Approve the application with newly identified conditions;
- Deny the application;

Or to continue the application so that the applicant or staff can provide additional information.

___X_ We offer the following comments regarding this referral:

The board understands that the current application is for rezoning from R to R-20, and as such we have no environmental concerns.

However, mapping in the application provided indicates a proposed driveway through existing wetland. To our knowledge, there has been no wetland delineation or Wetland Restoration and Replacement plan provided. As the Applicant proceeds with the proposed project, the Board believes that a Wetland Restoration and Replacement Plan will be required in accordance with Park County Land Use Regulations, Article VII, Division 9 - Wetland Regulations to disturb the wetlands for the driveway creation.

PARK COUNTY BOARD OF COUNTY COMMISSIONERS
PLANNING DEPARTMENT STAFF REPORT

Commission Hearing Date: December 22, 2016

To: Board of County Commissioners

Date: December 15, 2016

Prepared by: John Deagan, AICP; Planner

Case Number: 16AMN-04

Subject: Guerrero Common Plat Amendment (Lot Consolidation to be Reviewed Administratively)

Request: The removal of 33 lots from Wandcrest Park, 3rd Filing, so they can be combined with an adjacent metes-and-bounds parcel.

Application Summary:

Applicant:	Rocky Guerrero
Owner:	Same
Location:	Part of the North ½ of Section 24, Township 7 Range 72 addressed as15674 South Pitkin Lane, Pine. See Attachment 1 for a vicinity map.
Current Zone District:	Residential
Surrounding Zoning:	Residential in all directions
Lot Size:	0.35 and 9.6 acres
Existing Use:	Single Family Residential
Proposed Use:	Same, with Detached Garage
Public Comment	None received at this time

Background:

Rocky Guerrero owns 33 small lots in Wandcrest Park, 3rd Filing and an adjacent 5-acre metes-and-bounds parcel south of them. He wants to build a garage on the latter parcel. This requires a lot consolidation and plat amendment to remove the first-mentioned land from the Wandcrest Park subdivision. A depiction of the existing and proposed lot configuration can be seen as Attachment 2. Staff has determined that the application meets the requirements for approval of a lot consolidation, and the plat amendment requires Planning Commission and Board of County Commissioners review.

Land Use Regulations and Strategic Master Plan: Each of the standards for approval of a Common Plat Amendment (LUR Section 6-504, page 38) is addressed below.

A. The Common Plat Amendment amends a County-approved and recorded Minor Plat, Final Plat, or Exemption Plat.
This requirement is not applicable to the situation. The plat for Wandcrest Park 3rd Filing was recorded in 1927 and Park County did not adopt subdivision regulations until 1960.

B. The Common Plat Amendment, as approved, either conforms to all applicable zoning or other standards or does not increase any nonconformity of an already legally nonconforming lot.
The amendment will eliminate 33 nonconforming lots by combining them with the larger metes-and-bounds parcel.

C. The Common Plat Amendment, as approved, meets or satisfies all applicable requirements of these Land Use Regulations.
The amendment meets all applicable requirements of the Park County Land Use Regulations.

D. The Common Plat Amendment, as approved, substantially conforms to the goals and policies of the Strategic Master Plan to the extent that such advisory provisions do not conflict with provisions or requirements of the Land Use Regulations and to the extent that such goals and policies set forth requirements which are sufficiently specific to permit the Planning Commission or the Board of County Commissioners to decide that such application or subdivision meets or fails to meet such goal or policy.
This plat amendment does not conflict with any goals or guiding principles of the Strategic Master Plan.

E. The proposed amendment would not cause significant hardship or inconvenience for adjacent or neighboring landowners.
This amendment would not cause any hardship or inconvenience to any neighbors.

F. The proposed amendment does not create or result in an illogical or inefficient lot layout or subdivision.
The proposed amendment will eliminate 33 inefficient lots.

Impact Analysis:

No significant impact is anticipated to schools, parks, storm drainage or utilities.

Planning Commission and Public Comment:

The Planning Commission reviewed this application at their November 8, 2016 meeting and unanimously recommended approval of the application with the following condition:

Prior to BOCC hearing, utility easements as requested by IREA in their letter dated December 8th 2016 are added to the plat.

This condition has been met. No public comment was received.

Recommendation:

Staff recommends that the application be approved with no conditions. The BOCC's options are to authorize the County Attorney to prepare a resolution to:

- Approve the application with no conditions;
- Approve the application with newly identified conditions;
- Deny the application;

Or to continue the application so that the applicant or staff can provide additional information.

Re: GUERRERO PLAT AMENDMENT
Case No.: 16AMN-01

Dear Mr. Deagan:

The Association has reviewed the contents in the above-referenced referral response packet. We reviewed the project for maintaining our existing facilities, utility easements, electric loading, and service requirements. We are advising you of the following concerns and comments:

The Association has existing overhead electric facilities on the subject property. The Association will maintain these existing utility easements and facilities unless otherwise requested by the applicant to modify them under the Association's current extension policies.

As part of consolidating the lots and encumbrances; the Association existing overhead electric facilities are installed on those lots being requested to be consolidated. The existing overhead electric facilities were installed in 1939 and the Association has on hand an unrecorded blanket easement granted by the Nickel's on November 9, 1939.

The Association is requesting that as part of the Plat Amendment process that the applicant defines the existing overhead electric facilities. The Association ia requesting a fifteen-foot (15') wide easement and a thirty-foot (30') wide easement as shown on the markup of the plat. In return, the Association will release the unrecorded blanket easement granted by the Nickel's.

Sincerely,

Brooks Kaufman

Re: GUERRERO PLAT AMENDMENT
Case No.: 16AMN-01

Dear Mr. Deagan:

The Association has reviewed the contents in the above-referenced referral response packet. We reviewed the project for maintaining our existing facilities, utility easements, electric loading, and service requirements. We are advising you of the following concerns and comments:

The Association has existing overhead electric facilities on the subject property. The Association will maintain these existing utility easements and facilities unless otherwise requested by the applicant to modify them under the Association's current extension policies.

As part of consolidating the lots and encumbrances; the Association existing overhead electric facilities are installed on those lots being requested to be consolidated. The existing overhead electric facilities were installed in 1939 and the Association has on hand an unrecorded blanket easement granted by the Nickel's on November 9, 1939.

The Association is requesting that as part of the Plat Amendment process that the applicant defines the existing overhead electric facilities. The Association ia requesting a fifteen-foot (15') wide easement and a thirty-foot (30') wide easement as shown on the markup of the plat. In return, the Association will release the unrecorded blanket easement granted by the Nickel's.

Sincerely,

Brooks Kaufman
