**PARK COUNTY BOARD OF ADJUSTMENTS  
PLANNING DEPARTMENT STAFF REPORT**

Board of Adjustments Hearing Date: January 10, 2017

To: Board of Adjustments Members

Date: December 29, 2016

Prepared by: John Deagan, AICP; Planner

Case Number: 16SET-09

Subject: Smith Variance

Request: The applicant is requesting a 24-foot variance from the west side setback requirement, a 15.5-foot variance from the rear setback requirement, and an 8-foot variance from the east side setback requirement in order to build a house.

---

**Application Summary:**

Applicant:	Henry Smith
Owner:	Same
Location:	Lot O, Park City, addressed as 2491 C.R. 12, Alma.
Current Zone District:	Residential
Surrounding Zoning:	Residential in all directions
Lot Size:	0.16 Acre
Existing Use:	Vacant
Proposed Use:	Single Family Residential

**Background:**

The subject lot is located in the Park City town site on County Road 12. A Vicinity Map is included as Attachment 1. The applicant is requesting a 24-foot variance from the west side setback requirement, a 15.5-foot variance from the rear setback requirement, and an 8-foot variance from the east side setback requirement in order to build a house. See the applicant's site plan, Attachment 2. Since the lot is less than 60 feet wide, it is not buildable at all with the current side setback requirements. The applicant is also requesting a variance from the rear setback requirement in order to build a deck attached to an existing structure on the lot. A note in the assessor's records indicates that this structure was damaged by fire in 1968, so it predates land use regulation in Park County.

Park City came into existence in 1879 but the first appearance of Lot O is on a survey dated 1941. Current subdivision review practice would not allow this lot to be created, as it is unbuildable with our current setback requirements without a variance.

## Land Use Regulations and Strategic Master Plan:

Each of the standards for approval of a variance (Land Use Regulation (LUR) Article III, Division 1, Section 3-100, page 2) is addressed below.

1. **A strict application of the Resolution causes peculiar and exceptional practical difficulties or exceptional and undue hardship by reason of exceptional narrowness, shallowness, or shape of a specific piece of land or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the land:**

As mentioned above, the size of the lot prevents it from being built upon at all if the current setback requirements are followed.

2. **The applicant provided reasonable and adequate evidence that the variance request is not a self-imposed hardship that can be rectified by means other than relief through a variance:**

The proposed structure is of very modest size (504 square feet).

3. **There exists no substantial detriment to any neighbor or to the public by the granting of the variance:**

Staff discerns no substantial detriment to any neighbor or the public that would be caused by granting the variance.

4. **The intent and purpose of the regulation being varied is not substantially impaired or defeated by the granting of the variance.**

Setback regulations exist to provide privacy, light access, and air movement between structures. The house would be 60 feet from the nearest structure on a lot to the west. The deck would be 12 feet from the nearest structure on the lot to the north, but this structure is an outhouse that can no longer be used for its original intent and would be difficult to re-purpose as anything other than a storage building.

Staff does not find this variance request to be contrary to any of the Guiding Principles of the Strategic Master Plan.

### Impact Analysis:

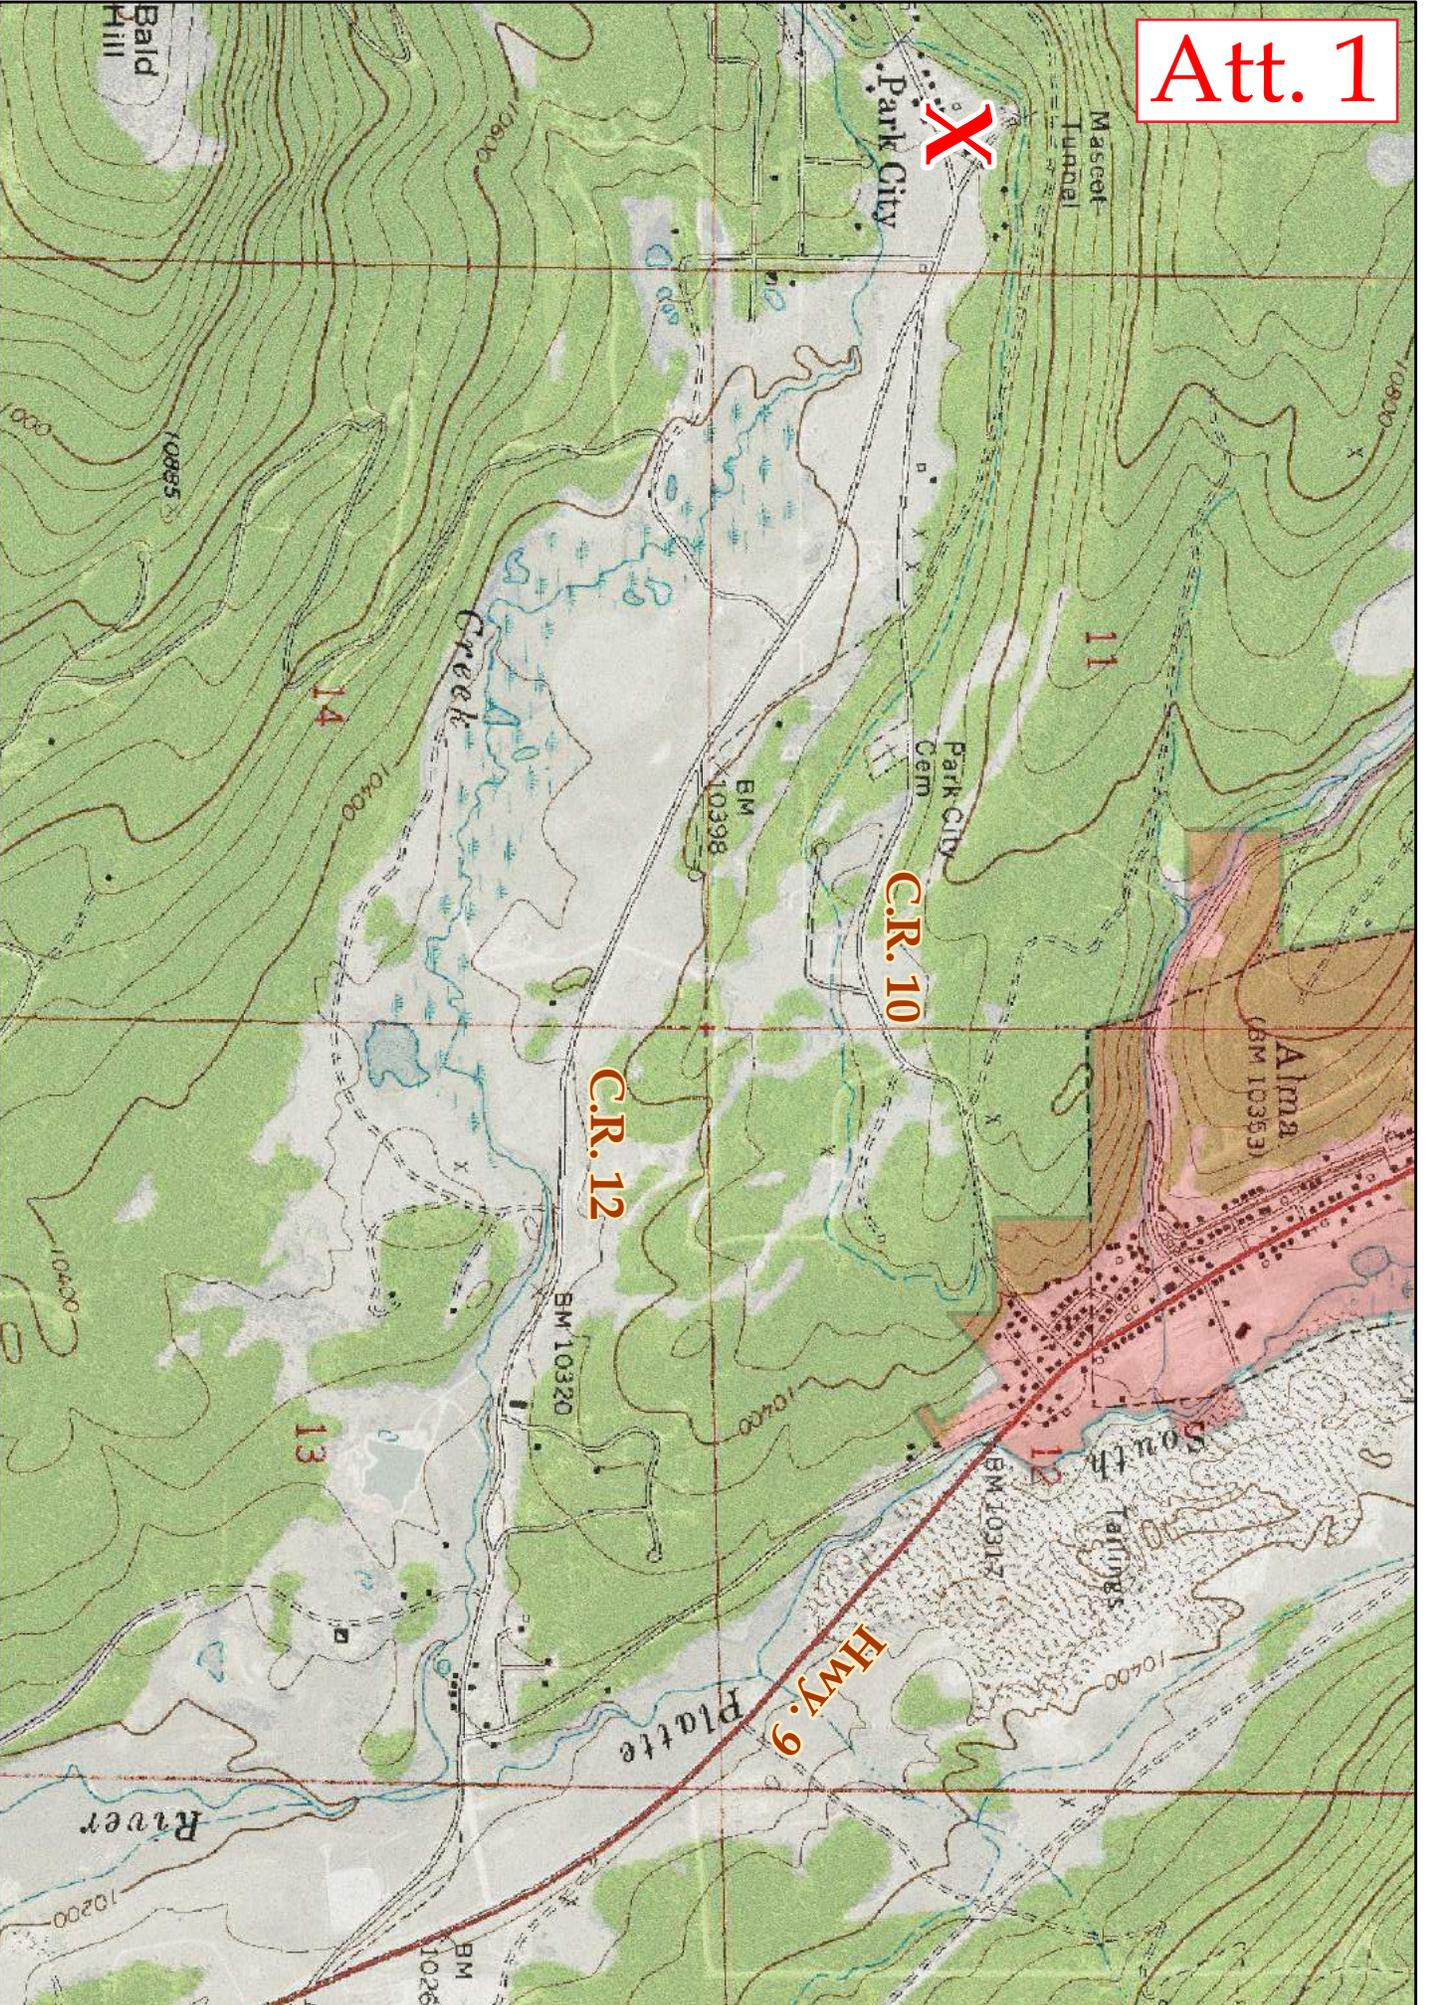

Only minimal physical or aesthetic impacts are anticipated.

### Public Comment:

No public comment has been received at this time.

### Recommendation:

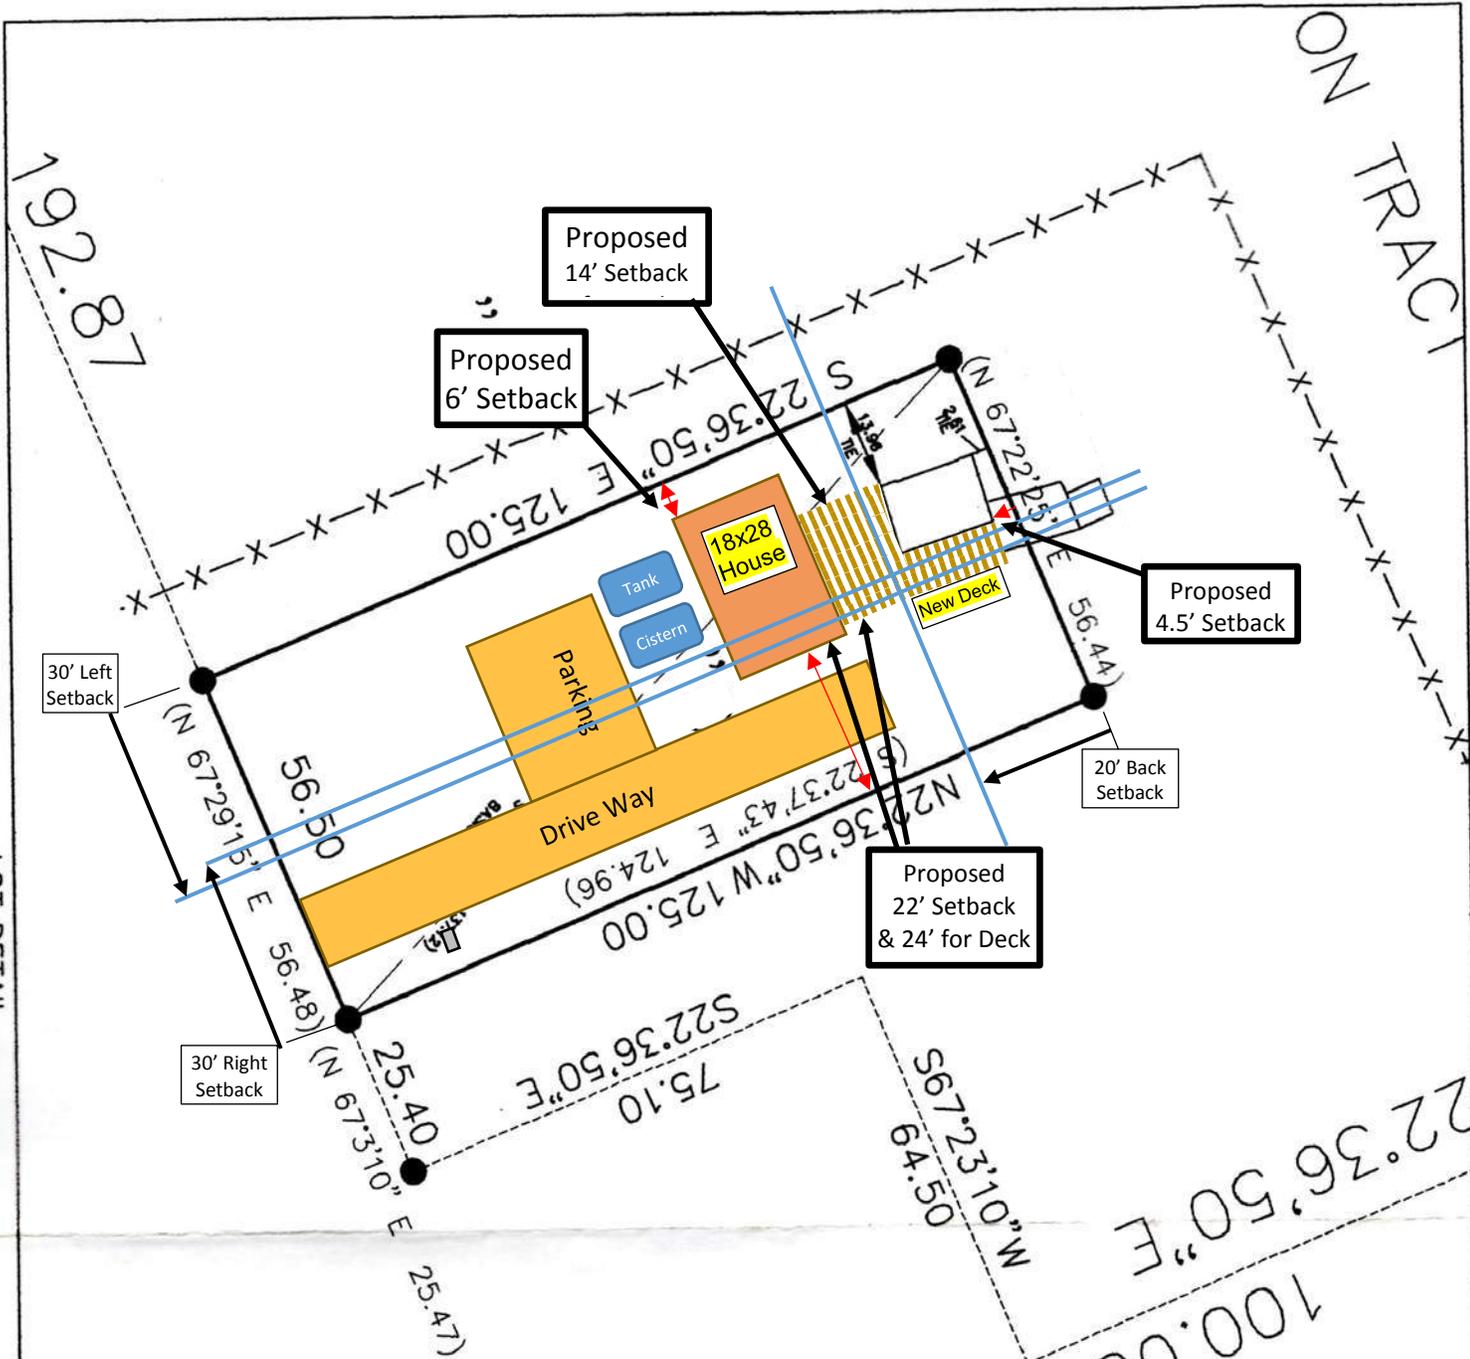

Staff recommends approval of the application with no conditions.

**Referral Response**

**Comment Deadline Date:** January 9<sup>th</sup>, 2016 **Submitted Date:** December 19<sup>th</sup>, 2016

**Case #:** 16SET-09 **Case Name:** Smith Structural Setback Variances

**Request:** Applicant is requesting a 24 foot variance from the west side setback requirement, a 25.5 foot variance from the rear setback requirement, and an 8 foot variance from the east side setback requirement in order to construct a residence.

**Location/Legal Description:** Lot O, Park City, addressed as 2491 County Road 12, Alma.

**Date of Board of Adjustment Hearing:** January 10<sup>th</sup>, 2016.

           We have reviewed this referral and find that it **does** comply with our Strategic Master Plan.

           We have reviewed this referral and find that it **does not** comply with our Strategic Master Plan for the following reasons:

\_\_\_\_\_  
\_\_\_\_\_

           We have reviewed this referral and find no conflicts with our interests.

           A formal recommendation is under consideration and will be submitted to you prior to \_\_\_\_\_.

           Please refer to the enclosed letter.

**X** We offer the following comments regarding this referral:

It is unclear from the application whether the property is to be used as a full-time or part-time residence. Will a deed restriction be included for a part-time residence?

For a full-time residence:

Park OWTS regulation Section 12, D. 1. Vaults for full time use in new construction are prohibited where a property can accommodate an OWTS with a soil treatment area. Based on the limited information provided, it

appears an OWTS using a higher level treatment system may fit on the lot, depending on surrounding development, residence location, etc.

For a part-time residence:

The proposed wastewater vault and cistern are proposed less than 50 feet apart. See Section 11.4 of the Water Well Construction Rules. “Location Variance - A cistern shall not be located closer than one hundred (100) feet horizontally to the nearest existing source of contaminants or (50) feet from a septic tank, sewer line, or other vessel containing contaminants... It is unclear from the site plan in the application how these requirements will be met with the proposed residence location.

**Requirements for a Variance  
Article III, Division 1, Section 3-100**

**C. APPLICATION REQUIREMENTS**

1. Application Fee. An application fee in the amount of \$1060 must be paid at the time of submission of the application. Make the check or money order to the Park County Planning Department. The fee pays for the typical cost to the County to process the application. Any additional costs that may occur are the applicant's responsibility.
2. Tax receipt-showing payment of current taxes. This can be obtained at the Park County Treasurer's office.
3. Proof of ownership in the form of a recorded Warranty Deed. This can be obtained at the Park County Clerk and Recorders office.
4. A legal description of the property proposed for the Variance prepared by a licensed Colorado land surveyor. **(ON SURVEY)**
5. A list of names and mailing addresses of all owners of adjacent property to the property subject to the proposed Variance, this information is at Park County Assessor's Office.
6. A vicinity map of where the proposed property is located within Park County.
7. A site plan drafted at a commonly used engineering scale with clear indication how the variance relates to the affected land with the following information:
  - a. Name and address of the owner;
  - b. Date of preparation, map scale, and north arrow;
  - c. Lot dimensions, total acreage, and points of access to the property, internal roads and trails. The map must illustrate how access is obtained from the property subject to variance to the nearest county road or highway;
  - d. Natural features of the property subject to variance including, wetlands, floodplain, riparian areas, water bodies, rock outcroppings, significant vegetation, geological or other hazards, and slopes greater than twenty-five percent (25%);
  - e. Utility systems including existing and proposed water wells, sewer systems, electric services, and natural gas;
  - f. The dimensions, height and setbacks of all existing and proposed structures.
  - g. A clear illustration or description of the proposed variance, using shading, crosshatching, or highlighting, to accurately illustrate the proposal.
8. The property must be clearly identified with the address and posted according to the Park County address requirements (attached).

RE: Variance Request for property at:

2194 County Rd. 12, Alma CO 80420

Legal Description;

T09 R78 S10 Park City, Lot"0"

**To Whom It May Concern:**

The variance that is affecting our property at 2194 County Rd 12 is the requirement of a 30 foot set back from both sides as well as a 20 foot set back from rear of property line.

We are requesting the setback to be 6 feet instead of 30' from the left side and 22 feet instead of 30' from the right side, also the rear setback to be 4.5 feet from 20'. This would cover the location of the proposed house and also the location of a new Deck.

The reason for variance request is that, I want to build a small house on our property but the property is only 56.5 feet wide and a 30 foot setback from both sides would result in a (-3.5) foot building footprint, effectively rendering the residential property useless because we would not be able to build a residential structure and still be in compliance.

The reason we're asking for a variance of a 20 foot set back from rear of property is so that we can build a wooden deck in front of a storage building that is already there and is within the 20 feet of the rear of the property. The Deck would be with in the new setbacks on the sides.

The variance approval criteria as stated in section 3-100B will be met.

1. We will not be able to build a home unless these variances are approved
2. The ordinance is affecting the entire property and there is no other place that we can build a home on this property.
3. Building a small home on this property once variance is approved will not be to the detriment of any neighbor or the general public.
4. Granting this variance should not affect any other property owner's building Setbacks.

Please see attached property map describing improvements that require the variance.

Thank you very much.

Henry Smith
