2. Discussion

- John – Researching and creating a spreadsheet of the towers and antennas throughout Park County. He is using a variety of resources and search engines and is coordinating with Jenny Gannon from the county on records. Joe Keen offered some further search suggestions.
- Chris – JKL is doing some work in Bailey. The handhole is installed in the street and there is fiber to the County Health building. JKL cannot pull the fiber through the conduit, so they are troubleshooting. All other equipment is installed.

There is no conduit from Lake George Library to CNF due to supply issues. Chris has a work-around for now.

Chris is also trying to document fiber in the county. He will contact Alex Telthorst for some information.
