

Question and Answer 1 regarding Guffey Library WAP

Question: On your RFPs and floor plans, I did not see markings to indicate potential locations for wireless access points. Can you identify locations for the wireless access points?

Answer: Below are the general evaluation results from an assessment done a couple of years ago for wireless access points in the four branches of Park County Public Library.

Park County Public Libraries – Guffey

(notes provided by Colorado Library Consortium with updates by Park County Public Library)

Wifi Access Point –Possible Location/Installation Notes to aid in project

Guffey – 1 Access Point recommended

AP1 – Replace existing access point

Question and Answer 2 regarding Park County Public Library WAPs

Question 2: Will the Library provide the WAPs to be installed or is this RFP for purchase and installation, and is there a preferred Brand?

Answer: The RFP is for both equipment and installation. There is not a preferred brand; however, the WAP must meet the requirements outlined in the RFP. Full text of the RFP can be viewed at <http://parkcounty.colibraries.org>
